

The Xylem Analytics Australia rental fleet is one of the strongest in the industry. Our product lines include everything from small hand held water quality instruments right through to AUV's (autonomous underwater vehicle) designed to create high-resolution maps of water quality and bathymetry.

YSI water quality sondes and sensors are a rugged, accurate instrument for environmental monitoring and long-term deployments. YSI 6-series & EXO sondes are multi-parameter instruments, with sensors utilising the latest optical technology for accurate measurements.

6-Series Field Cables - Vented			
15 m Vented Field Cable	\$20	\$60	\$180
6-Series Accessories - Cables			
6100 External Power Cable for 6095 or 6067 Adaptors. (Incl. SDI-12 data line)	-	\$5	\$20
6095 Field Cable to Female DB-9 (PC) with Power Conn. (MS-4)	-	\$15	\$40
6067 Sonde Download/Calibration Cable (RS-232 Serial)	-	\$15	\$45
6115 GPS Y-cable	\$5	\$20	\$65
6037 Power Supply, 12 VDC w/220VAC Input (MS-4)	-	\$10	\$30
6096 Field cable to flying lead (bare wire) adapter, 4.5 m	-	\$5	\$20
6-Series Accessories - Misc			
Sonde weight kit (6600)	-	\$10	\$30
Sonde weight kit (6920)	-	\$10	\$30
Sonde weight kit, 0.7 kg (600)	-	\$10	\$35
Sonde weight kit, 1.5 kg (600)	-	\$15	\$40
Flow Cell for 6820 & 6920	\$10	\$30	\$90
Flow Cell for 6600	\$5	\$20	\$65
6-Series Accessories - Anti-Fouling			
Anti-fouling Probe Guard for 600OMS	\$20	\$55	\$170
Anti-fouling Probe Guard for 6920	\$20	\$60	\$180
Anti-fouling Probe Guard for 6600	\$20	\$65	\$190
Copper anti-fouling tape & screen install for pH, ORP & Conductivity probes	-	-	\$60
Turner Sensors & Adapter			
Turner Sensor Adapter	\$120	\$360	\$1,075
Turner Refined Fuels Sensor	\$235	\$700	\$2,100
Turner Crude Oil Sensor	\$85	\$250	\$750

EXO sondes represent the culmination of innovation and experience resulting in a new generation of monitoring technology.

The EXO 1 multiparameter water quality sonde collects data with up to four user-replaceable smart sensors and an integral pressure transducer to collect data to 250 m.

The advanced EXO2 sonde contains six replaceable smart sensors and a central wiper to clean biofouling and depth rated to 250m.

SonTek manufactures affordable, reliable acoustic Doppler instrumentation for water velocity measurement in oceans, rivers, lakes, canals, harbors, estuaries, and laboratories. Our instruments use sound waves to tell you how fast water is moving, where it is moving, and even if it is not moving at all.

About Xylem Analytics Australia

Xylem Analytics Australia was established in 2008 to support the growing YSI & SonTek customer base in Australasia. As leaders in the supply of instruments to the water resources market, Xylem Analytics Australia realise the importance of this commitment. With our constant stream of innovative products we are connected to our Australasian customers. We want to assist in ensuring that you collect data of the highest quality – reliably.

What can Xylem do for you?

Xylem (XYL) is a leading global water technology provider, enabling customers to transport, treat, test and efficiently use water in public utility, residential and commercial building services, industrial and agricultural settings. The company does business in more than 150 countries through a number of market-leading product brands, and its 12,500 people bring broad applications expertise with a strong focus on finding local solutions to the world's most challenging water and wastewater problems. Xylem was named to the Dow Jones Sustainability World Index for advancing sustainable business practices and solutions worldwide.
